

Sprint 2 Retrospective Review – Lochlann O Neill

GitHub Repository: https://github.com/Lochlannoneill/assignment_groupProject

Monday Board: <https://cit637169.monday.com/boards/806388493>

The members of this group conducted more frequent meetings this sprint in order to regularly discuss the directions each of us were taking with the project. This helped us get back on track after falling a small bit behind last sprint.

What we did

Each group member continued to update the GitHub repository as they completed each task. The assignment of tasks was done using a Monday Board. Each team member was assigned with the following:

Keith:

- App Use Cases + App User Stories

- Web Use Cases + User Stories

Gerardo:

- Continue Website Development

Daniels:

- App User Stories

- Begin App Development (Login Activity, Main Activity)

Lochlann:

- Update Monday Board

- Begin App Development (Login Activity)

- Sprint Retrospective Review

- Gather and Submit Deliverables

Continue/Stop/Start

Continue:

- Communication quality via discord and voice chat

- Frequent Meetings and checkups of works-in-progress

Stop:

- Haven't yet connected the website and app to the same database

Start:

- Submitting to GitHub more frequently

- Allocating more tasks per person

- Create task burndown chart to show progress of work
